Interview with Flavia Ba of IDEP: ADIF2026 Knowledge Fair

Taking Stock of the ADIF-2026 Knowledge Fair: A Journey of Impact

As part of the Africa Development Information Forum (ADIF) 2026, held in Addis Ababa on 11–12 June 2026 under the theme "Innovation for Job Creation in Africa," the Knowledge Management Services Section (KMSS), in collaboration with the African Institute for Economic Development and Planning (IDEP), organized a Knowledge Fair titled "A Journey of Impact."

The Knowledge Fair was officially opened by Mr. Said Adejumbi, Director of SPORD, and was honored by the presence of ECA Executive Secretary Mr. Claver Gatete and Deputy Executive Secretary Ms. Mama Keita, who visited the exhibition and engaged with the showcased initiatives.

The fair illustrated how evidence-based research and policy ideas evolve into practical solutions that drive job creation and sustainable economic transformation in Africa. Structured around the three stages- Ideas for Impact, Ideas into Action, and Action to Impact- the exhibition featured interactive digital displays and thematic booths showcasing innovations and development experiences from the African Centre for Economic Transformation (ACET), ECA's Socio-Economic Development Division (SEDD), UNDP, UN Volunteers (UNV), Kabana Leather, and Chapa Financial Technologies.

The Knowledge Fair provided participants with an engaging platform for knowledge sharing, collaboration, and networking while promoting ECA's knowledge products and demonstrating the value of research, innovation, and partnerships in advancing Africa's development agenda.
